ABOUT ME

B.Tech Computer Science (AI & ML) student interested in web development and machine learning. I enjoy building projects, writing code, and learning new technologies through hands-on experience.

EDUCATION

Lokmanya Tilak College of Engineering | Aug2024- Aug2028

Bachelor of Technology(B-Tech)

B.Tech student in Computer Science and Engineering (AI & ML). Focused on learning core computer science fundamentals and gaining real-world engineering experience.

WORK EXPERIENCE

INFOSYS Springboard | Nov2025- JAN2025

AI Intern

Currently participated in an 8-week virtual internship focused on building and testing machine learning models. Working on data preprocessing, model training, and evaluation using Python

IBM SkillsBuild | DEC2025- JAN2026

AI Intern

Participating in a 6-week free virtual internship under CSRBOX in collaboration with IBM SkillsBuild and AICTE, with hands-on work in AI fundamentals, data analysis, and Python.

Nexus Spring Of Code NSOC |

Project Admin

Managed project-related activities and coordinated with contributors during the open-source program. Assisted in organizing project workflows, tracking progress, and maintaining project documentation.

PROJECT

PROGONS AI

Developed a GRU-based deep learning model to predict the Remaining Useful Life (RUL) of aircraft engines from sensor data.

[link](#)

Buzz Filter

Built an SMS spam detection system using Machine Learning and NLP to classify messages as spam or legitimate.

[link](#)

Virtual Science Lab

Created a virtual laboratory platform for interactive science experiments with simulations, gamification, and user management features.

SKILLS

- **Programming Languages:** Python, JavaScript, TypeScript, SQL
- **Web Development:** HTML, CSS, React.js, Next.js, FastAPI
- **Machine Learning & AI:** Scikit-learn, TensorFlow, Keras, Deep Learning, Computer Vision
- **Data Science:** NumPy, Pandas, Matplotlib, Data Analysis, Statistics
- **Tools & Platforms:** Git, GitHub, GitLab, Docker, Jupyter Notebook, MongoDB Atlas, Vercel
